Describe in same manner as point of diversion.
g) State number and kinds of animals to be watered 2000 head of
cattle and 8000 head of sheep.
h) Use will begin about Jan. 1 and end about Dec. 31, of each year.  Applicants and their predecessors in interest have used the  i) Remarkswater from these sources for watering stock, and said stock
has been grazed on and used all of the available range adjacent to the sources for many years prior to 1905, and therefore such vested rights sources for many years prior to 1905, and therefore such vested rights
as have been initiated thereby, which said ights are not waived by virtue of the filing of this application

## DESCRIPTION OF PROPOSED WORKS

A cut will be made at the Spring and water conserved by means of a State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water	
series of earth and rock dams.	
is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.	
5. Estimated cost of works \$200.00	
6. Estimated time required to construct works one year	22
7. Remarks Owing to ruling to the effect that the water law does not	
provide a means for the State Engineer to determine vested rights for stockwatering purposes, this application has been filed as the simplest and most convenient means of perfecting record title and right to the	
use of water from the source herein.  F. E. Bush and F. H. Murphey, Applicants
